
PATCHED DiskState V3.00.1099 (Retail)

This guide will show you how to install the LAMP stack. This tutorial is for Linux and Windows servers. Please Learn more about this on the Apache website. You need PHP and MySQL to run the LAMP stack. Below we will install all the required software for Linux and Windows server. If you are a Mac user, this will not work for you. The Xampp package is not an installer that will setup Apache, PHP and MySQL on your computer, but a ready-to-use, downloadable.
