A: I found a solution to my problem. Here is the question: how to select text from a file without select all the text by googling I found this: and I created this in Notepad: If Len(MyFile) > 0 Then Dim i As Long Dim n As Long Dim j As Long Dim found As String Dim start As Long start = 1 While (Not (found = Mid(MyFile, start, 1))) n = InStr(MyFile, " ", start, 1) + 1 j = InStr(MyFile, " ", start, 1) If (n > j) Then If (Len(MyFile) > start) Then found = Mid(MyFile, start, Len(MyFile) - start + 1) Else found = "" End If start = n Exit While End If Wend If (found "") Then Range("A" & n).Select Selection.TypeText found Else MsgBox "File could not
