autoeye.3. cimpress.exe autofx is a virtual set of tools which will increase the attractiveness of your photos. all the tools are available in an easy to use interface. the main objective of autofx is to change the color of the picture. the tools are designed to significantly improve the technical quality of your  
photos. autofx allows us to apply or use the colors from original picture directly from the layer under which the original photo will remain untouched. how to apply auto effects on the photos: 1. open the project which you want to apply the effect in. 2. add new effect on the project. 3. apply the desired  
effect to the image. 4. save the project. 5ec8ef588b
