If you're looking for a simple personal assistant on your phone that will suggest contextual info based on the messages you receive, look no further than Google Now. Google Now reads your SMS and IM conversations, know what's going on in your life and it gives you all the hints you need to get back to work. The most powerful of these suggestions is the contextual information that Google Now gives you based on what is happening in your life. Why did you just ask for a recommendation? Maybe someone at work talked to you about a coworker that recently left. Maybe your soccer team lost a game. Google Now also gives you contextual information based on your location, your calendar, and your Google email. Once you get the hang of how Google Now works, it's a helpful tool for getting your life back on track. And, best of all, Google Now can be downloaded on any Android phone for free! John has been using Google Now to keep track of the stock market. It's used multiple times a day to send him the latest developments on his investments. It's a little bit of a novelty, but very useful. John uses Google Now every day to make the most of the tasks that he has in his life. If you're looking for a way to take the reigns off of your busy life, you just might find a useful sidekick in Google Now. Great website. Cool. Did you develop this site yourself? It looks made very well. I'm hoping to start my own blog in the near future but I'm a little lost on everything. Would you advise starting with a free platform like WordPress or go for a paid option? There are so many choices out there that I'm totally overwhelmed. Any recommendations? Thanks a lot!

The romanians of the Romanians of Bessarabia were the majority, Romani. By the time the 1848 Moldavian Revolution made Romania a part of the kingdom, the Romani of Bessarabia had formed a distinct ethnic group and had been experiencing intense separatist movements throughout the 19th century, which they had expressed in significant ways during the War of Independence. By the time Romania became a state in 1878, there were approximately 500,000 Romani in Bessarabia. Romania went on to annex Bessarabia following the Treaty of Berlin, and further acculturated the Romani population there. In 1918 Romania and the Soviet Union agreed on the memory card converter fusing of Bessarabia and Northern Bukovina into Moldavia, hence, the bulk of the Romani population was moved to the region.
